

INTERNATIONAL

CHURCH OF LAS VEGAS

October 11, 2007

City of Las Vegas
Planning Department
400 Stewart Ave
Las Vegas, Nevada 89101

To whom it may concern:

International Church of Las Vegas has been a growing church over the last 12 years, from a congregation size of 700 to 4,000. During the course of our growth we have been challenged as far as available facilities for storage of various church items that we have acquired by donation such as a cold storage and various storage units. These containers have been used in the furtherance of our Preschool and particularly in the storage of food to feed the homeless therefore serving a crucial need in the Las Vegas Valley.

It has come to our attention that these units should have gone through the City of Las Vegas' permit process but we were unaware of the need to do so. It has never been the church's intent to circumvent the required city codes and regulations. We are now filing the appropriate applications and requesting your consideration in receiving the approved permitting for these facilities.

Please contact me at (702) 622-5685 or (702) 673-4785 if you have any questions.

Sincerely,

Michael Bradanini
Construction Manager
